

What the Missouri Editors Are Saying

Yell; Tell Us About It!

A year ago you could buy twenty pounds of sugar for \$1. Now how many can you buy?—Henry County Democrat.

Yes, He Is More Equal.

The president is better at golf with Major Butt than in debate with Speaker Clark. Atchison County Mail.

Numerous Knocks on Knox.

It appears that in connection with that Brewster Congress there are a good many knocks on Knox.—St. Louis Republic.

Then Will Be Willing.

If Senator Bailey only incorporates in the Congressional Record his declaration to retire, no right-minded congressman will object to his interpolation of the words (Applause and Laughter.) St. Louis Republic.

A Matter of Great Relief.

It may be a matter of relief to the members of the United States Shoe Machinery Company that they are to be prosecuted criminally instead of by civil proceedings. Otherwise they might be fined several hundred dollars.—Marshall News.

Can You Guess This "Riddle?"

Under the beneficent trust regulations by the Republicans the sugar trust stole millions from the government but never a man went to prison for it. Instead the trust was fined for the offense and now the price of sugar has nearly doubled to the consumer. Can you guess who is going to furnish the money for that fine? Gallatin Democrat.

Hocus-Pocus Will Not Work.

In his "swing around the circle" President Taft will have a hard time in explaining his actions in taking the tariff off the products the farmers sell, and refusing to take it off the articles the farmers buy. The hocus-pocus game will not work with the westerners.—Albany Ledger.

A Fad Cursed Age.

The politicians who are running after every new fad that hatches in the brain of some theorist are not making very strong strides on their journey toward the hall of fame. We are living in a fad cursed era, politically, socially and physically and the sooner we eliminate a lot of the stuff the better for the state, the home and the body.—Kirksville Journal.

This Farmer Was Daffy.

A farmer who sells his farm in a prosperous community and buys a picture show and a motor car in a large city needs a guardian, was the decision of a jury in the probate court at Macon the other day. The jury appointed a guardian for E. A. Cunningham, on petition of his wife, who said he was too easily influenced by smooth tongued men with quick money-making propositions.—Brookfield Argus.

Says They Should Keep Still.

Our advice to the partisan friends of Champ Clark and Joe Folk is that they should both sit still in the Democratic boat. The presidential question between the two will adjust itself alright if left alone, and if the national Democracy wants either of the two for its nominee, it will find a way to nominate him independent of any action on the part of Missourians.—Boonville Advertiser.

Can You Explain This?

Ten years ago a pair of five-pound woolen blankets could be bought for

\$3.75; today they cost \$5. At that time the price of five yards of serge cloth, 50 inches wide, was \$3.75; the price now is \$6.25. Ten years ago twenty yards of unbleached cotton could be bought for \$1.20; today the cost is \$2.20. Five yards of all wool flannel could be purchased then for \$2.75; the price now is \$6.25. Flour sold for \$3.50 less per barrel during the civil war than it does now. Boonville Advertiser.

The Stockholders Will Not Suffer

"It is not considered likely that the stockholders will suffer any loss of income with the change in organization," says the dispatches in relation to the dissolution of the Standard Oil into its subordinate companies. Such is the result of the decree of death rendered by the United States supreme court against the oil trust. Since 1882 it has paid dividends amounting to \$752,000,000, or more than 7 dollars upon every dollar of its capitalization of \$100,000,000. That is an average of 26 per cent a year.—St. Louis Times.

If Canada had adopted that agreement, our newspapers might have been satisfied to continue their championship of Protection robbery in other than print-paper transactions, but it is hardly likely that they will do so now. Already reports are current that indicate higher prices for print-paper in consequence of the defeat of Canadian reciprocity. So newspapers will probably have to continue taking "pot luck" with other American consumers in this game of forcing excessive price burdens upon consumption for the benefit of monopoly interests in production. They are more likely, therefore, than they otherwise might have been, to grow in grace in all Freetrade directions.—Ex.

Much is said in these days for and against reformers. The truth is the reformers are just about like the men who are opposed to them. Some of them are honest and dependable. Some of them are not. The great bulk of them, perhaps, like the great mass of mankind, are a mixture of good and bad. A man who fights more or less for privilege is not in much more danger of becoming intoxicated by the love of money than the one who makes a public fight against it is in becoming a knave and a hypocrite from self-righteousness. Once more if no reform were ever put into force until all of the men who advocated it were truly good and disinterested the world would stand stock still and never move an inch.—Lamar Democrat.

Their Father's House.

Make your home sunshiny and happy, if you want to make it attractive. The young heart is boiling over with glee and frolic. God made it so, and it is your duty to accept it and to provide means for innocent recreation. Youth is the period of impression and imitation and then holy aspirations are most rapidly developed. Provide them with music, books and papers, pictures and flowers, at home; every appliance to awaken all that is pure and noble in mind and in heart. Let your children feel that their father's house is the dearest, happiest spot on earth; and as they pass into life's activities and responsibilities, let them remember the home of their childhood, not as the place of bitter words and hard drudging, where they simply ate, and drank, and slept, but as the sunniest spot in all the past, where their sweetest and holiest affections linger, and where all their truest aspirations and their noblest principles were fostered, formed, and fixed.—Selected.

Have your Watches, Clocks and Jewelry repaired at Bebb's Jewelry Store. All work guaranteed.

HELPFUL HINTS ON HAIR HEALTH.

Scalp and Hair Troubles Generally Caused by Carelessness.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how cleanly the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hat-band is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results you claim. This remedy is called Rexall "93" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that we think that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in Monroe City only at our store—The Rexall Store. L. M. Wood, Druggist.

Many persons feel offended because their coming and goings are not mentioned while those of others are, and wonder what the matter can be. The explanation of the matter is that the editor means to be impartial, but some escape mention. The likes and dislikes of an editor have nothing to do with it, and while it is not pretended that the editor is more than human he knows that the success of his journal depends on the fairness and impartiality to all. It is the best way always when a notice is desired to mention it to the editor, or send it through the post office. No one feels worse about any seeming neglect or partial performances of duty than the editor himself.—Ex.

Land Sale.

A fine 240 acre farm, 3 1-2 miles North of Monroe City, known as the William L. Owen farm and occupied by John T. Jackson, will be sold at partition sale at the Court House in Palmyra, on Monday, October 16th, 10-12.

Frank W. McAllister, Attorney for Plaintiff.

Mrs. A. G. Mason died at Wichita, Kan., last week and her remains were brought to Paris and buried beside those of her husband, the late A. G. Mason, formerly editor of the Paris Mercury.

For Sale.

6 room cottage with good barn and outbuildings. Bargain if taken at once.

J. S. Conway.

Stickney Gasoline Engines ARE THE BEST.

We All Wear Overalls

I want to help you because then you will help me. Let me assist you in selecting your engine—The make, the size and your other equipment. I have paid for my experience with hard cash, and when I say the Stickney is the best, I know it. Am all through experimenting. Come and let me show you what convinced me—the outside igniter, an engine without trouble.

Land+Water=Good Crops Land—Water=Failure

The Big Horn Basin and Yellowstone Valley Have an Abundance of Water for Irrigation Purposes.

The Government has made ample provision to supply each and every farmer under its canals with sufficient water during the crop growing season to cover each and every acre of his farm two feet deep. This is equal to twelve heavy rains of two inches each. Just think what it would have meant to your community during the crop growing season, just closed, if your farmers could have turned on twelve two inch rains at will. You can do this next year and every year thereafter as long as you are farming, if you will go with me to Powell, Wyoming, and file on one of the Government irrigated homesteads, now ready for entry. Homeseekers Tickets on the first and third Tuesdays of each month. New Booklet Free—tells all about these lands. Write for it—today—now.

D. CLEM DEEVER

Immigration Agent, Room 270 Q Bldg., Omaha, Neb.

Harold Lee, who has a position in one of the offices of the city government of Chicago is visiting his relatives, the Madden family in this vicinity. Mr. Lee says while the democrats of Illinois are not altogether harmonious, the republicans seemed to be hopelessly split up and democratic chances for electing the next Governor of Illinois are good.

Fitch Tonic and Dandruff Remover is good for the hair. Have it applied at Strean's Barber Shop.

Lead, Zinc and Apples.

Parties who have been drilling wells around Cuba, Mo., have found both lead and zinc in paying quantities. In one well the drill passed through 2 feet of zinc and 25 feet of lead. Proper development of this will make for Missouri another Joplin district. Then above ground they have a fine crop of fine quality beautifully colored apples and other varieties of fruit etc. The above we glean from a clipping and a letter sent us by our good friend "Tony" Meyers who is now on his farm near Cuba.
